POMP, CIRCUMSTANCE, AND OTHER SONGS OF A LIFETIME

—by Professor David Citino, 1947-2005, Late University Poet Laureate

(Originally presented as the 2000 Winter Commencement address)

If you're like me, you've got a big head,
not to mention a funny robe, full of music—
poems and melodies, the tunes
we move to, shower and shave by,
study, write to. Not just the incidental,

but the momentous music keeping time.
Our histories are measures of song.
Listen to your heart: drums of Africa,
sea-spume of blind, far-sighted Homer,
Sappho's honeyed love lyrics. Often,

music speaks for us, one note saying
a thousand words. Like Rodolpho
in Puccini's *La Boheme*, *Sono un poeta*.
I am a poet. *Che cosa faccio?* What
do I do? *Scrivo*. I write. *This ceremony*

is loud music—pomp and circumstance
of the life you began freshman year
or that first day of graduate school.
In my head I press *Play*, and the CD
of Big Days kicks on. I leap and linger

over moments too sweet, nearly, for words.
I'll never escape rhymes from the nursery.
*Up above the world so high, like a diamond
in the sky*. We knew from the start
our universe was aglow with wonder.

Italian, Latin, English songs in nasal accents
of Cleveland. *Gaudeamus igitur, Juvenes
dum sumus*. *So, let us rejoice, while
we are young*. Youth is that gift we can't
comprehend while we're young. *This ceremony*

means you all are less young than you were.
Don't let the heavy knowledge gained
from your studies deprive you of the gifts
of youth, to be able to rejoice at the drop
of a hat, to care for, be moved by others.

Now I hear golden hits of five decades.
Big Mama Thornton, and that so-called *King*
(King of what, fried butter sandwiches?)
who stole away her hound dog. *You ain't
never killed a rabbit, you ain't no friend*

of mine. As with those profs and TAs,
course after course, you had to produce—
kill some rabbits—to earn respect.
And at times OSU may have seemed
like Heartbreak Hotel, down at the end

of Lonely Street, so difficult was it
to do your best. Tennessee Ernie Ford,
"Sixteen Tons": *St. Peter don't you
call me 'Cause I can't go*. I owe
my soul to the company store.

You have been digging deep in mines
of knowledge. We all owe our souls
to Ohio State, company store of learning,
shared experience—precious ore
we have in common forever.

Now I hear Domenico Modugno's
fervent urging to wish, sing, fly,
Volare, Wo-oo. Cantare, Wo-o-o-o.
My grandfather was a peasant farmer,
a *contadino* in Calabria in the toe

of Italy. He knew it's the human lot
to dream of flying. *Lucky, lucky,
lucky me, I'm a lucky son-of-a-gun*.
*I work eight hours, I sleep eight hours,
That leaves eight hours for fun*.

Hey! He sailed in steerage across
the Atlantic, came to Cleveland, where
he stayed long enough to work 52 years
for the B&O Railroad, before lying down
to rest in good Ohio soil. So many of us

here today came from elsewhere,
or ancestors did. From Tennessee, Italy,
Africa, Asia, Appalachia—even,
President Kirwan, the wilds of Kentucky
and Maryland. Women and men with backs

supple as birch trunks. The courage
it took to pick up stakes and begin again
in a new world! Think of the work
those older ones did. For you. You all
are facing a change right now.

This sheepskin is your passport.
You're bound for emigration to
the next song of your life. Ohio State
is the ark on which you've been sailing.
You've been the precious cargo.

But, as Noah once said, *I can see
clearly now the rain is gone*. The ark,
our university, was filled to overflowing
with the *diversity* of us. Diversity.
Networks and talk shows devalue the word.

I say, rather, *the richness of us*,
precious difference, the grand multiplicity
of selves that balance this globe
and enable it to spin true. Grandson
of peasant immigrants, I was given

the opportunity to earn a doctorate
in English literature from Ohio State—
because my family labored long nights
around the kitchen table trying to learn
this arduous English. I sat where

you're sitting twenty-six years ago.
Bob Dylan and Smokey Robinson got me
through. Yes, it took a prophet and Miracles!
My son earned an OSU Ph.D. in history.
Now you, graduates, are being honored—

by degrees. We've all come together
around the kitchen table of Ohio State.
Ohio, *Round on the ends and high
in the middle*. For the years to come
we'll sing together, *Beautiful Ohio*,

*in dreams again I see, Visions of what
used to be*. These psalms, sacred thoughts
of our tribes, 78's and 33's, tapes,
CD's—they take up space in shelves
of our skulls, our hearts. They remind us

we want a song beyond the run-
of-the-mill thrill, the moment throbbing
with pleasure or bathed in the blues.
We ache for something grander than
pure selfishness. Songs sung for one

alone are not true music. Arias shared
are music of the spheres, ways of saying
to another something from the soul.
Of course the Buckeye Battle Cry
is there. *Drive, drive on down the field*,

*Men (and women!) of the Scarlet
and Gray*. Well, you drove on down
the field, and you drove up and down
the streets, around and around
crowded lots, looking for a place to park,

and you searched our dark, ancient library
for a decent place to study. My wife,
Mary's, father marched in the first
"Script Ohio," in 1936. He's here today
with us, blowing his horn, I can't help

but feel, as is the sweet mother
I lost last year, the one who gave me
the stars. Today's music makes us think
of the debts we owe, and never can repay.
So many of us would not be here

were it not for the lullabies and songs
of dear parents, their parents, theirs.
Some are here today in the flesh.
Many are not. We mourn them with cadences.
of our hearts. Think how many people

sang before us, gave us a name, a voice,
taught us the right words. We must
cherish them by remembering every song.
When we sing to others, we honor
our fathers and mothers, thank them

for this day of profound scarlet and gray
pomp and circumstance. *O, come
let's sing Ohio's praise, And songs
to Alma Mater raise*. Alma mater.
Ohio State is our sweet, nurturing mother.

We came of age here, with her help.
*Well, Mother, we love you, but, like,
it's time we moved out, got a place
of our own*. You're standing there,
Mom, gray hair, eyes scarlet

from crying. *We won't forget you*.
Now, even though this ceremony
means we're being weaned, taken off
the nipple, let's take care to cherish her
all our days. Let's remember

the words to the songs she taught us,
and pass them on. We'll remember
always, Graduation Day. *Summer's heat,
and winter's cold, The seasons pass,
the years will roll, Time and change*

will surely show How firm thy friendship,
O-hi-O. We call that little number
Carmen Ohio. *Carmen* means song
in Latin. You've worked hard; she
is your reward; today is your reward.

You're filled to overflowing with
the notes, the poems we've written
together. You know the score.
Continue to work hard for yourselves,
and one another. Find the ones who need

you to sing to, for them, in the world.
Graduates, this joyful litany, this hymn
our ancestors collaborated on with us,
the calling of your name today is music
to our ears. Sing that name proudly

all your days, as if your life depended
on it. It does, you know. It has been
an honor for me to speak—and sing—
to you today. Thank you, graduates,
and, again, Congratulations.

*Oh! Come let's sing Ohio's praise,
And songs to Alma Mater raise;
While our hearts rebounding thrill,
With joy which death alone can still.
Summer's heat or Winter's cold,
The seasons pass, the years will roll;
Time and change will surely show
How firm thy friendship—Ohio.*

Recessional

Excerpts from the commencement ceremony will be broadcast
on WOSU-TV, Channel 34, at 5:30 p.m. on December 12.

President Holbrook looks forward to personally congratulating graduates
in French Field House immediately following the ceremony.

Deborah A. Ballam

Deborah A. Ballam is associate provost for Women's Policy Initiatives and director of The Women's Place at The Ohio State University.

A four-time graduate of Ohio State, Professor Ballam earned her B.A., M.A., J.D., and Ph.D. degrees at the university, joining the faculty in 1982. She is a professor of legal environment of business in the Fisher College of Business. Before assuming the leadership role at The Women's Place, she directed the Undergraduate Business Administration Honors Program.

As director of The Women's Place, Professor Ballam oversees the university's central resource aimed at connecting and improving the quality and equality of work/life for women at Ohio State. She also serves as an advisory resource for development of university policies affecting women.

She is widely published on topics in employment law and the history of the relationship of government and business. She has served as editor-in-chief of *The American Business Law Journal*

and as president of the Tri-State Regional of the Academy of Legal Studies in Business, which awarded her its national Senior Faculty Award for excellence in research. The academy also has presented her with two outstanding research awards for articles published in *The American Business Law Journal*.

Professor Ballam's scholarship and teaching have been recognized by Ohio State with several awards, including the University Distinguished Affirmative Action Award, the College of Business Pace Setters Outstanding Undergraduate Teaching Award, and the Association of Faculty and Professional Women's Mary Ann Williams Leadership Award.

In recognition of her commitment to women's rights, Professor Ballam was honored as one of the Franklin County YWCA Women of Achievement in 2002 and with the 2003 Nettie Cronise Lutes Award, presented by the Ohio State Bar Association for dedication to the advancement of women in the legal profession. Her proudest accomplishment, however, is her wonderful son David.

THE JOSEPH SULLIVANT MEDAL

The Joseph Sullivant Medal was established in 1920 with a fund endowed by Thomas C. Mendenhall, Ohio State professor of physics. The Sullivant Medal is awarded every five years for "an admittedly notable achievement on the part of a son or daughter of the university, whether that achievement be in the form of an important invention, discovery, contribution to science, the practical solution of a significant engineering, economic, or agricultural problem, or the production of a valuable literary, artistic, historical, philosophical, or other work." (Thomas Mendenhall, 1920)

Liang-Shih Fan

Liang-Shih Fan is Distinguished University Professor and C. John Easton Professor of Engineering in The Ohio State University's Department of Chemical and Biomolecular Engineering. He is one of the world's leading authorities on fluidization and multiphase flow, powder technology, and energy and environmental reaction engineering.

Professor Fan earned his B.S. degree from National Taiwan University and his M.S. and Ph.D. degrees from West Virginia University, all in chemical engineering. He also earned a M.S. in statistics from Kansas State University before joining the Ohio State faculty in 1978. He served as chair of the Department of Chemical Engineering from 1994 to 2003.

During his 27 years at Ohio State, he has gained international renown for his invention of several patented clean coal processes, including "OSCAR" (Ohio State Carbonation Ash Reactivation) and "CARBONOX" (carbon-based NO_x reduction technology). Both processes have been successfully demonstrated for

flue gas cleaning in coal combustion with the projected economic impact of these processes at billions of dollars globally.

In the fluidization and powder technology areas, Professor Fan developed the first Electrical Capacitance Volume-Tomography (ECTV) for real-time 3-D imaging of flow structures in multiphase flows, the impact of which is comparable in chemical processes industries to that of the CATSCAN in medical applications.

Professor Fan has authored or co-authored three books, 22 book chapters, 280 journal papers, and 240 conference papers. He has edited 13 symposia, journal volumes, or books, and he holds 12 patents. He has served as a technical leader in the Argonne National Laboratory Midwest Universities Consortium's Multiphase Flow Institute and as consultant to 20 corporations and national laboratories, including Exxon, Shell, DuPont, Union Carbide, and the Pittsburgh Energy Technology Center. He is an elected member representing the United States on the governing board of the International

Congress of the Multiphase Flows and is the founding chair of the American Institute of Chemical Engineers' Particle Technology Forum and a member of the National Science Foundation's Active Chemistry Writing Team Leader for a K-12 textbook and the National Academy of Engineering's Minority Engineering Committee.

Professor Fan has received more than 50 awards in recognition of his research and teaching, including the American Chemical Society's E.V. Murphree Award in Industrial and Engineering Chemistry, the American Institute of Chemical Engineers Alpha Xi Sigma Award for Chemical Engineering Research, the Council for Chemical Research's Malcolm E. Pruitt Award, and the American Society for Engineering Education's Union Carbide Lectureship Award. He is a fellow of the American Association for the Advancement of Science and the American Institute of Chemical Engineers, a member of the U.S. National Academy of Engineering, and a foreign member of the Mexican Academy of Sciences.

RECIPIENTS OF HONORS

Judah Folkman

Doctor of Science

Judah Folkman is Julia Dyckman Andrus Professor of Pediatric Surgery and professor of cell biology at Harvard Medical School and is currently director of the Vascular Biology Program at Children's Hospital, Boston.

A native of Columbus, he received his undergraduate degree from The Ohio State University in 1953 and his medical degree from Harvard University in 1957. From 1960 to 1962, he served as a lieutenant in the U.S. Navy at the National Naval Medical College in Bethesda, Maryland, where he and a colleague reported the use of silicone rubber implantable polymers for the sustained release of drugs. These findings led to the development of Norplant—an internationally used contraceptive—and initiated the field of controlled release technology.

Following his residency in the Department of Surgery at Massachusetts

General Hospital, Dr. Folkman joined the Harvard Medical School faculty, becoming professor of surgery in 1967. That same year, he was appointed surgeon-in-chief and chair of the Department of Surgery at Children's Hospital, Boston, a position he held for 14 years before changing his career to full-time research. During this time, he initiated the field of angiogenesis research by studying how malignant tumors develop their blood supply.

In 1971, he published an article in *The New England Journal of Medicine* advancing the hypothesis that all tumor growth is dependent on angiogenesis—the growth of new capillary blood vessels. During the next decade, Dr. Folkman developed a number of laboratory tests that could be used to study tumor angiogenesis. He isolated the first tumor angiogenic proteins in the 1980s, and, in the 1990s, he and his colleagues identified angiostatin

and endostatin, both of which are naturally occurring inhibitors of tumor angiogenesis. These discoveries have set the stage for the development of new drugs that may be even more potent inhibitors of tumor angiogenesis. Angiogenesis inhibitors have now received FDA approval in the United States for cancer and for the treatment of macular degeneration and are also approved in 27 other countries.

Dr. Folkman is the author of 391 original, peer-reviewed papers and 106 book chapters and monographs. He has been elected to the National Academy of Sciences, the American Academy of Arts and Sciences, the American Philosophical Society, and the Institute of Medicine of the National Academy of Sciences. He is also the recipient of numerous national and international awards.

Jerome I. Friedman

Doctor of Science

Nobel laureate Jerome I. Friedman is Institute Professor Emeritus and Professor of Physics Emeritus at the Massachusetts Institute of Technology.

A native of Chicago, Professor Friedman earned his A.B., M.S., and Ph.D. degrees at the University of Chicago and began his career in physics at that institution's Enrico Fermi Institute as a research associate in 1956. He then spent three years at Stanford University's High Energy Physics Laboratory before joining the MIT faculty as an assistant professor in 1960, becoming a full professor in 1967. From 1980 to 1983, he served as director of MIT's Laboratory for Nuclear Science and, from 1983 to 1988, as head of the physics department.

Professor Friedman specializes in experimental particle physics. His

research has included studies of particle structure and interactions with high-energy electrons, neutrinos, and hadrons. His experiments at the Stanford Linear Accelerator proving the existence of quarks as the fundamental building blocks of all hadronic matter were recognized by the 1990 Nobel Prize in Physics, awarded jointly with colleagues Henry W. Kendall and Richard E. Taylor, and by the 1989 W.H.K. Panofsky Prize.

He is also the recipient of the Wick Medal of the World Federation of Scientists and the Alumni Medal of the University of Chicago. He is a member of the National Academy of Sciences, the American Academy of Arts and Sciences, and the American Philosophical Society, and a Fellow of the American Physical Society and the American Association for

the Advancement of Science.

Professor Friedman has served on numerous advisory committees for the U.S. Department of Energy and various laboratories, including the Cambridge Electron Accelerator, CERN—the European multinational particle physics laboratory—the Council of the High Energy Accelerator Research Organization of Japan, Fermilab, Los Alamos National Laboratory, Princeton-Penn Accelerator, Stanford Linear Accelerator Center, the Superconducting Super Collider, and Wilson Laboratory.

He is a past president of the American Physical Society and was chair of the Council of Scientific Society Presidents. He currently serves as vice chair of the board of governors of the Okinawa Institute of Science and Technology.

RECIPIENTS OF HONORS

Michael E. Moritz

Distinguished Service Award

Michael E. Moritz, a dual graduate of The Ohio State University and the man for whom Ohio State's College of Law was named, died tragically in 2002. His generosity in making the largest single gift the university has ever received has resulted in unprecedented opportunities for the college and its students.

The Columbus native earned a B.S. in business administration in 1958 and his law degree in 1961, graduating at the top of his class. During his years at the law school, Mr. Moritz was supported by a \$5,000-a-year Mershon Scholarship, which he was to pay back many times over as he became a successful lawyer.

He began his law career with Dunbar,

Kienzle and Murphy and, in 1972, formed his own firm with David McClure, also an Ohio State alumnus. In 1980, the firm—by then a 12-lawyer group—merged with the Cleveland firm of Baker & Hostetler with Mr. Moritz as a partner in the Columbus office.

Mr. Moritz was a director of Cardinal Health, Pharmacy Systems, and the Pickett Hotel Company. He was a past president of the Capital City Young Republicans Club, trustee of the Kenyon Festival Theatre, and commissioner of the Ohio Elections Commission.

Along with his wife, Lou Ann, Mr. Moritz was an active advocate on behalf of the university throughout his life, serving as a director of The Ohio

State University Foundation and the campaign committee of the Fisher College of Business, where he established the Moritz Family M.B.A. Scholarship Fund.

His unprecedented gift to the College of Law created a scholarship fund, which offers full tuition and a stipend for 30 Ohio State law students. It also finances leadership awards to three students each year and established four endowed faculty chairs. The gift also established the Gregory H. Williams Dean's Fund for Excellence, named for the college's former dean.

It is with deep respect and gratitude that Ohio State posthumously honors this generous and devoted friend and alumnus.

Lou Ann Moritz Ransom

Distinguished Service Award

Lou Ann Moritz Ransom is an active community volunteer and a long-time advocate for The Ohio State University.

After earning her certificate in dental hygiene at Ohio State in 1958, she married Michael E. Moritz, then a student in the College of Law. Their partnership was to last 43 years until Mr. Moritz's untimely death in 2002. In 2001, the couple made an unprecedented gift to the university's College of Law, which has enabled the college to provide student scholarships, make strategic new faculty hires, and support innovative programming. Their generosity was recognized with the naming of the college as

the Michael E. Moritz College of Law.

The couple's gifts to their university also include the creation of the Moritz Family M.B.A. Scholarship in the Fisher College of Business and support for the Wexner Center for the Arts, the Department of Athletics, and WOSU stations. In addition, Mrs. Ransom recently established the Michael Moritz Scholarship for members of the Phi Gamma Delta fraternity.

Mrs. Ransom continues to serve Ohio State as a director of The Ohio State University Foundation Board and as a member of the Moritz College of Law's National Council. She retains an ongoing commitment to the college through her

involvement with the Moritz Law Scholars. Each year, the Moritz Law Scholarship Committee selects up to 10 members of the incoming class of law students to receive the prestigious Michael E. Moritz Scholarship—the highest honor awarded to a new student. Mrs. Ransom is instrumental in helping select the Moritz Law Scholars as well as the men and women who serve as their mentors.

The Columbus community also benefits from her support and vision through her service on the boards of the Homeless Families Foundation and the Marburn Academy.

THE OHIO STATE UNIVERSITY CLASS GIFT PROGRAM

In 1891, a group of students planted five elm trees on the Oval the evening before graduation and the Class Gift tradition was born. Since that time, Ohio State students have continued to celebrate their commencement with gifts to the university.

For 2005, the Student Campaign Advisory Board is focusing its Class Gift efforts to help fund the Beautification of Mirror Lake. Rich in history and tradition, this project touches the lives of most students who walk the Ohio State campus each day. Students may also designate their Class Gift to their college's or school's Annual Fund or any other fund they choose.

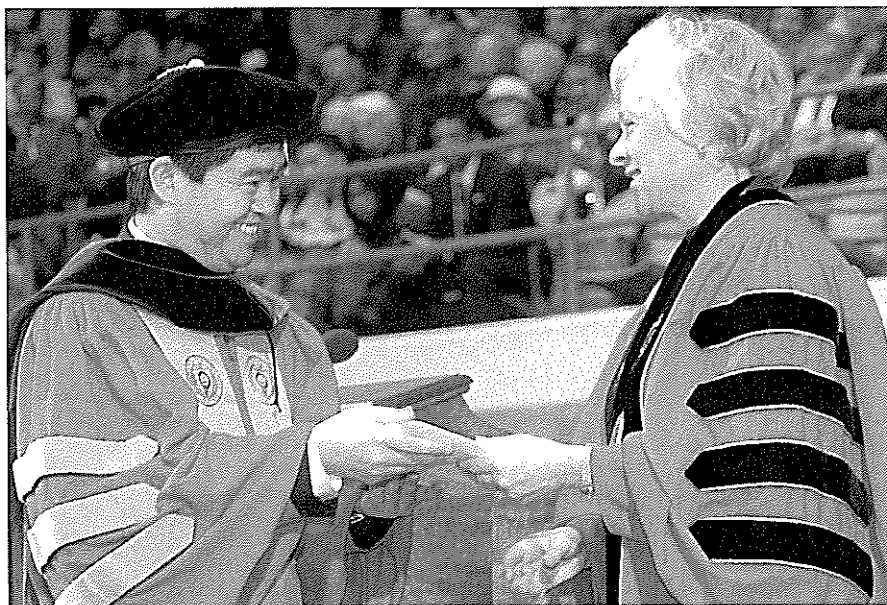

The Student Campaign provides an opportunity for students to become involved in Ohio State's unique campus-wide culture of philanthropy. As part of this culture, the Class Gift is a special way for graduating students to express their thanks for the education they received and leave a legacy that will benefit future Ohio State students for years to come.

Graduates who wish to make their 2005 Class Gift may contact the Student Campaign Coordinator in the Office of Annual Giving or go to the web site at www.giveto.osu.edu/classgift.

Congratulations on your graduation, and we hope you look forward to this next chapter in your lifelong relationship as a Buckeye.

Thanks for your support!

A MESSAGE FROM PRESIDENT HOLBROOK

Commencement represents a culmination and celebration of your accomplishments at The Ohio State University. It is the most solemn and yet the most joyous and exhilarating ceremony held at any university. It is a day for academia, family, and friends to gather and share with you their tears and laughter, their love and hope, and their tremendous pride for your many years of hard work and achievement. It is a day you will long remember.

Today, you join a family of more than half a million Ohio State graduates and step into a new world of rich and challenging opportunities. As graduates of The Ohio State University, you have good reason to feel a strong sense of pride and accomplishment—as well as excitement about a promising future. Working with your professors and the university community, you have built a well-rounded education and polished it with relevant experience. Upon this foundation, your education will continue to grow and help you create a lifetime of productivity, personal fulfillment, and civic responsibility.

Through time and change, you will surely remember your years at Ohio State as some of the happiest, most important, and most influential experiences of your life. And I am confident that your firm bonds to this great university will only grow stronger. Please accept my congratulations and personal best wishes on this very special day.

Karen Holbrook

CONGRATULATIONS AND WELCOME TO THE ALUMNI ASSOCIATION

Congratulations on receiving your degree. You may not notice the difference, but today, along with hundreds of your colleagues, you have joined the ranks of Ohio State alumni. For you, one era has passed, and another is about to begin.

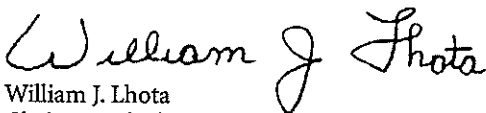

You are a member of the Buckeye family and partner in the enterprise, carrying the reputation of Ohio State through your activities and accomplishments. You exemplify the fruits of a good education: a critical mind, a discerning spirit, higher values, a sense of commitment, and the privilege of service.

You can assist the university in many ways. You can recruit new and highly qualified students. You can represent Ohio State well through personal and occupational achievements. You can participate financially through the Development Fund. And you can work in an advisory capacity with the university to improve it and its programs to better prepare today's students for tomorrow's citizenship.

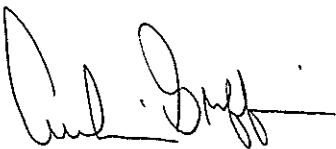

We extend to you a year's complimentary membership in the Alumni Association. Included is a year's subscription to the *Ohio State Alumni Magazine*, which will keep you informed of the university's continuing pursuit of excellence and help you keep in touch with your friends and classmates.

To you, your family, friends, and all those who helped you reach this day go our best wishes. You are joining a great family of Ohio State alumni working together to make a difference around the world.

Cordially,

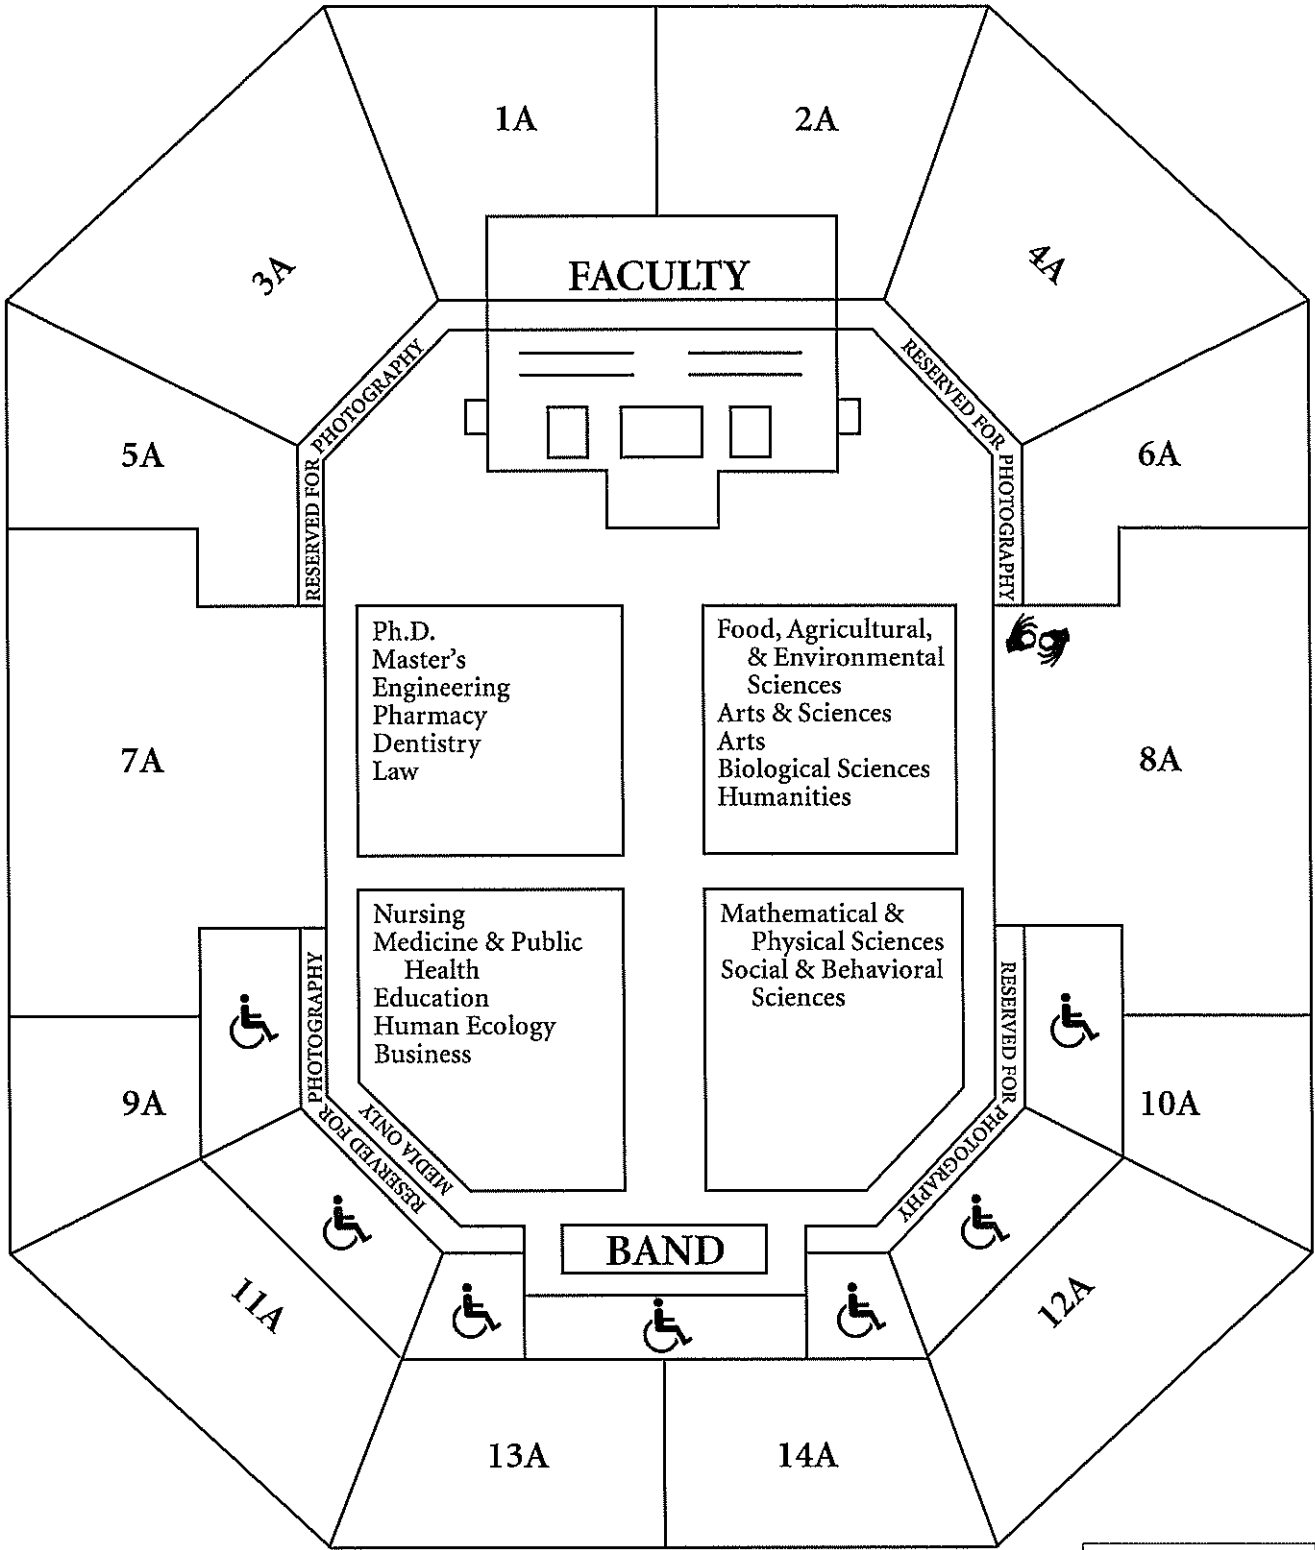

William J. Lhota

THE ACADEMIC COSTUME

The colorful ceremonies of The Ohio State University commencements derive from practices originating in the Middle Ages. When European universities were taking form in the 12th and 13th centuries, the scholars were usually clerics, and consequently they adopted costumes similar to those of their monastic orders. Cold halls and drafty buildings called for caps and floor-length capes with attached hoods, and the sobering influence of the church probably influenced the staid character of the caps and gowns.

As the control of the universities gradually passed from the church, some

aspects of the costumes took on brighter hues. Old prints and engravings, however, reveal a strong similarity between the regalia worn in early universities and that of the present day.

In light of our nation's English heritage, academic costume has been in use in the United States since colonial times. To establish a standard of uniformity in regard to the practice, an intercollegiate commission was formed to prepare a code for caps, gowns, and hoods that has since been adopted by all academic institutions.

Originally round, the shape of the cap is now the familiar mortarboard square—

a shape which, according to ballad folklore, resembles a scholar's book. Legend also has it that the privilege of wearing a cap was the initial right of a freed Roman slave; the academic cap, therefore, has become a sign of the freedom of scholarship. The flowing gown has become symbolic of the democracy of scholarship, for it covers any dress that might indicate rank or social status. The hood, reserved at The Ohio State University for those receiving doctoral and master's degrees, not only indicates the type of degree, but also is lined with the official colors of the university.

The Gown

Bachelor: The bachelor gown is black, full cut with long pointed sleeves.

Master: The master gown is black, long or short sleeves, with an arc-shaped panel extended for each sleeve.

Doctor: The Ohio State University Doctor of Philosophy gown is scarlet with gray velvet panels on the front and three velvet bars on each sleeve. Other doctor gowns are black with velvet panels and bars, the color of which is distinctive of the field of study.

Honors Emblem

The Ohio State University honors emblem is a scarlet and gray tasseled braid worn over the gown. Students eligible for this curricular honor are those graduating *summa cum laude*, *magna cum laude*, *cum laude*, with distinction, and with honors.

The Hood

Bachelor: Three feet long with a two-inch-wide velvet edging.*

Master: Three and one-half feet long with a three-inch-wide velvet edging.

Doctor: Four feet in length with a five-inch-wide velvet edging and panel at the sides.

The lining of all hoods, which is folded out, bears the official colors of the institution granting the degree. The color of the velvet indicates the field of study.

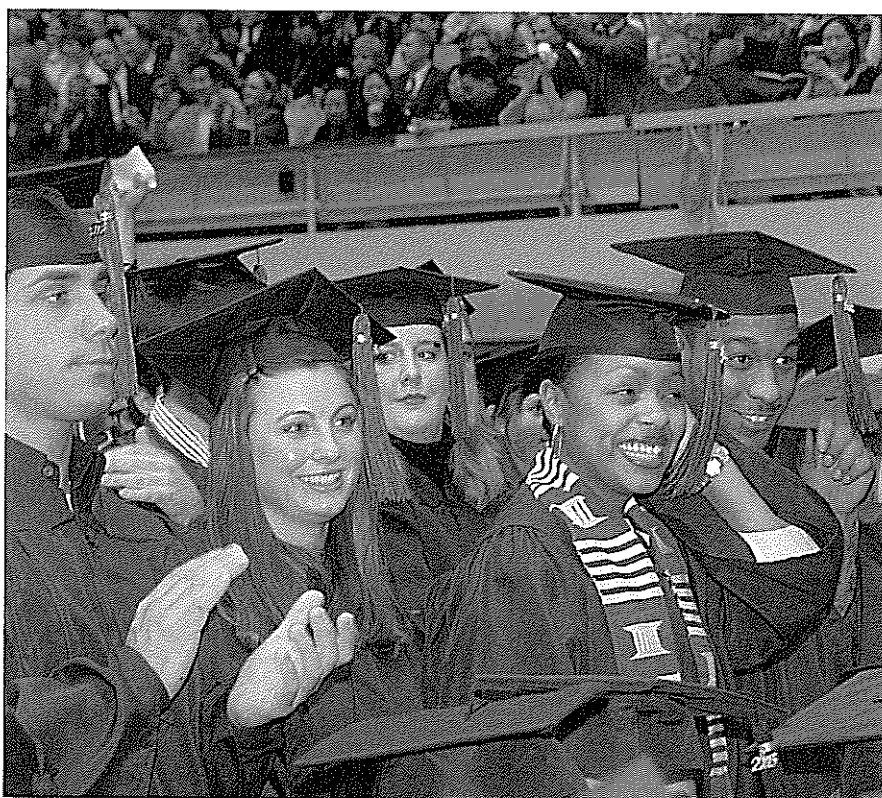

Cap and Tassel

Candidates for degrees at The Ohio State University wear the black mortarboard with a tassel whose color is distinctive of the degree being received. The tassel colors are as follows:

Graduate School (Ph.D.)	Gray
(Others).....	Black
Colleges of the Arts and Sciences	White
College of the Arts (B.A., B.S.I.D.)	White

THE LONG WALK

In 1893, the master plan for The Ohio State University campus proposed a group of buildings around a central open space. The first reference to this area as “the Oval” was around 1910. A year later, a very elaborate, geometric pattern of walks within the Oval was added to the plan. This included a lengthy east-west walk—today anchored on the west end by the William Oxley Thompson Library and on the east end by Page Hall and the Wexner Center for the Arts. By 1919-20, and possibly earlier, this came to be known as the “Long Walk.” In the early years, freshmen were forbidden to be on the Long Walk. The penalty—occasionally enforced by upperclass students—was to be thrown into Mirror Lake.

As one of Ohio State’s most notable landmarks, the Oval is a key aspect of the university’s identity, as well as a hub of its active daily life. In June 2004, a major restoration project got underway to ensure the Oval’s historic character while, at the same time, to address the contemporary needs of the campus. Walkway replacement, an irrigation system, new turf, and new lighting will all help preserve the Oval’s integrity and make the area better able to withstand and accommodate a wide variety of student activities and special events. The construction project was completed in June 2005.
