Oh! come let's sing Ohio's praise,
And songs to Alma Mater raise;
While our hearts rebounding thrill,
With joy which death alone can still.

Time and change will surely show
How firm thy friendship—Ohio.

Commencement Address

Manuel T. Pacheco

Manuel T. Pacheco became president of the University of Arizona this year after serving as president of the University of Houston-Downtown since 1988. Prior to his tenure at the University of Houston, he was president of Laredo State University in Texas from 1984 to 1988.

A native of Rocky Ford, Colorado, Pacheco is a graduate of New Mexico Highlands University and received his master's in Spanish from the Universite de Montpellier, France, where he was a Fulbright Fellow. He earned his doctorate in foreign language education from Ohio State in 1969.

Throughout his career, Pacheco has held a number of faculty and administrative positions in higher education, including that of dean of the university and professor of education at Laredo State, chairman and professor of the Department of Multicultural Education at San Diego State University, executive director of the Bilingual Education Center and director of the doctoral program at Texas A & I University, and executive director for planning and associate dean of the College of Education at the University of Texas at El Paso. In 1984, he served for six months as chief policy aide for education to the governor of New Mexico.

He is an active speaker, consultant, and committee member who shares his expertise on bilingualism and foreign language instruction. His committee service has included the American Association of State Colleges and Universities (AASCU) Committee on Conferences and Professional Development, the U.S. Commission on Civil Rights Texas Advisory Committee, the board of trustees of the Educational Testing Service, and the American Association of Colleges of Teacher Education (AACTE) Commission on Multicultural Education.

In 1988, Pacheco was named one of the 100 most influential Hispanics in the U.S. by *Hispanic Business* magazine. *Spanish Today* magazine listed him among the "Most Prominent American Hispanics of 1984." He received Ohio State's Distinguished Alumnus Award in 1979 and 1981.

Ohio State is proud to welcome this notable scholar and administrator back to campus to address the graduating class.

Recipients of Honors

Martin Meyerson Doctor of Humane Letters

Named by *Time* magazine as one of four university presidents who "have done uncommonly well," Martin Meyerson has been a leading force in higher education for three decades. As president of the University of Pennsylvania from 1970 to 1981, he reestablished the importance of that institution as one of the nation's top universities and restored the beauty of its urban campus.

Meyerson received his undergraduate degree from Columbia University and an M.C.P. from Harvard University in 1949. He began his academic career as an assistant professor of social sciences at the University of Chicago in 1948. He joined the University of Pennsylvania faculty in 1952 as associate professor and in 1957 became the Frank Backus Williams Professor of City Planning and Urban Research at Harvard University. From 1958 to 1963 he also served as the first director of the M.I.T.-Harvard Joint Center for Urban Studies. In 1963, he was appointed dean of the College of Environmental Design at the University of California at Berkeley.

Throughout his career, Meyerson has been an active participant in national, regional, and cultural development projects for governments and institutions. In recent years, he has been an important emissary to Japan, helping to develop the Kitakyushu research center to foster international cooperative research. In 1986, he became president of the Foundation for the International Exchange of Scientific and Cultural Information by Telecommunications, chartered in Switzerland and the United States. He has served on United Nations advisory groups for Japan, Indonesia, and Yugoslavia.

Meyerson is principal or co-author of the following books: *Politics, Planning and the Public Interest*, 1955; *Housing, People and Cities*, 1962; *Face of the Metropolis*, 1963; *Boston: The Job Ahead*, 1966; and *Gladly Learn and Gladly Teach*, 1978. His seminal paper, "Building the Middle-Range Bridge for Comprehensive Planning," given in 1956, remains pertinent to city planners to this day.

His many honors include fellowship in the American Academy of the Arts and Sciences, the Einstein Award of the American Technion Society, the John Jay Award from Columbia University, a Distinguished Achievement Award from the University of California at Berkeley, the Commander of the Order of Merit of the Republic of Italy, and the Order of the Rising Sun from the Government of Japan. He is the recipient of 18 honorary degrees from colleges and universities worldwide.

Ohio State is proud to add its recognition to the list of deserved honors already accrued by this distinguished scholar, educator, statesman, and public servant.

Peter Taylor Doctor of Letters

One of the most respected and important writers of our time, Peter Taylor has added immeasurably to the body of American literature during his illustrious career.

His 1986 novel, *A Summons to Memphis*, brought him the long overdue attention of a wide reading audience and resulted in his winning the 1987 Pulitzer Prize for Fiction, as well as the \$50,000 Ritz-Hemingway Prize—the first American to do so. Taylor also has received the 1986 PEN-Faulkner Award for *The Old Forest and Other Stories* and, in 1984, a National Endowment for the Arts senior fellowship for a lifetime contribution to American letters.

A native of Tennessee, Taylor earned his 1940 bachelor's degree from Ohio's Kenyon College, where he studied under John Crowe Ransom, the noted poet and critic. His fellow students included Randall Jarrell and Robert Lowell.

During his academic career, Taylor has held faculty appointments in English literature and creative writing at six universities, including Harvard, and ending with a 20-year tenure at the University of Virginia. From 1957 to 1962, he taught at Ohio State, where he was instrumental in establishing the University's widely respected creative writing program. He has held visiting appointments at the University of Chicago and University College, Oxford and has been awarded Guggenheim, Fulbright, and Ford fellowships.

Taylor's work appears in virtually every anthology of modern short stories assembled in recent years, and he has been a frequent contributor to literary magazines such as *The New Yorker* and *The Kenyon Review*. In addition to his novel and short stories, he has written a number of plays.

Ohio State proudly joins the writers, critics, and readers who applaud the talent and contributions of this distinguished gentleman and author.

The Academic Costume

The colorful ceremonies of The Ohio State University Commencements derive from practices originating in the Middle Ages. When European universities were taking form in the 12th and 13th centuries, the scholars were usually clerics, and consequently they adopted costumes similar to those of their monastic orders. Cold halls and drafty buildings called for caps and floor-length capes with attached hoods, and the sobering influence of the church probably influenced the staid character of the caps and gowns.

As the control of the universities gradually passed from the church, some aspects of the costumes took on brighter hues. Old prints and engravings, however, reveal a strong similarity between the regalia worn in early universities and that of the present day.

In the light of our nation's English heritage, academic costume has been in use in the United States since colonial times. To establish a standard of uniformity in regard to the practice, an intercollegiate commission was formed to prepare a code for caps, gowns, and hoods that has since been adopted by all academic institutions.

Originally round, the shape of the cap is now the familiar mortarboard square—a shape which, according to ballad folklore, resembles a scholar's book. Legend also has it that the privilege of wearing a cap was the initial right of a freed Roman slave; the academic cap, therefore, has become a sign of the freedom of scholarship. The flowing gown has become symbolic of the democracy of scholarship for it covers any dress that might indicate rank or social status. The hood, reserved at The Ohio State University for those receiving doctoral degrees, not only indicates the type of degree, but also is lined with the official colors of the University.

The Gown

Bachelor. Black, full cut with long pointed sleeves.

Master. Black, long or short sleeves with a re-shaped panel extended for each sleeve.

Doctor. Black with velvet panels on front of gown and three velvet bars on each sleeve. Color of the velvet may be black or distinctive of the field of study.

The Hood

Bachelor. Three feet long with a two-inch-wide velvet edging.*

Master. Three and one-half feet long with a three-inch-wide velvet edging.*

Doctor. Four feet in length with a five-inch-wide velvet edging and panel at the sides.

* Not usually worn by candidates for a degree.

The lining of all hoods, which is folded out, bears the official colors of the institution granting the degree. The color of the velvet indicates the field of study:

| Dentistry | Lilac |
| Law | Purple |
| Medicine | Green |
| Musical Arts | Pink |
| Optometry | Sea-foam Green |
| Pharmacy | Olive Green |
| Philosophy | Dark Blue |

Cap and Tassel

Candidates for degrees at The Ohio State University wear the black mortarboard with a tassel whose color is distinctive of the degree being received. The tassel colors are as follows:

| | |
